EDUCATION

Western University

Sep. 2024 – May 2028

Bachelor of Science, Computer Science

London, ON

- **Academics:** 3.97/4.0 GPA, Western Scholarship of Distinction, Dean's Honour List
- **Relevant Courses:** Data Structures & Algorithms, Systems Programming, Discrete Structures, Linear Algebra

EXPERIENCE

Software Developer Intern | Ontario Public Service (OPS)

May 2025 – Aug. 2025

Ministry of Public and Business Service Delivery and Procurement

Toronto, ON

- Developed frontend and backend components for Generic Data Collection System (**GDCS**), an **Azure-based internal web application** for **cross-department government data collection**, working in a ~15-person team.
- **Enhanced application-wide UI across multiple core pages** and implemented settings page features using C#, ASP.NET, Blazor, and DevExpress (DxGrid), including global font scaling and responsive layouts to **improve accessibility** across devices.
- **Refactored service and interface layers** using **MVC patterns and dependency injection**, improving code maintainability and enabling cleaner feature additions, with code changes **formally reviewed and merged into the main branch through pull requests** via **Azure DevOps**.
- Implemented validation updates, bug fixes, and UI testing in collaboration with interns and full-time developers, improving **usability, reliability, and accessibility compliance** ahead of production readiness.

PROJECTS

Moodi | TypeScript, React, TSX, Vite, Presage SDK, Google Gemini API, Supabase | 🐙

- Collaborated in a **team of 4** to design and ship a polished health-tech prototype in **36 hours** at HackWesternXII, driving feature decisions and resolving integration bottlenecks under hackathon time constraints.
- Built a **React + TypeScript** interface to visualize **real-time biometric data** from the **Presage SDK**, handling continuously updating heart-rate and breathing-rate signals in a live UI.
- **Designed reusable UI components** and state logic to support **continuous, noisy physiological data streams** and integrating **Google Gemini API** and **ElevenLabs (STT/TTS/STS)** to support natural-language and voice-based health input that dynamically updating in-app metrics such as hunger.

Stockll | TypeScript, React, TSX, Vite, Tailwind CSS, REST APIs, Gadget | 🐙

- Built a full-stack analytics web application in a 36-hour hackathon (uOttHack 7), enabling **real-time stock searches**, market overviews, and news integration via the **Finnhub REST API**.
- Implemented **Google SSO (OAuth)** and **role-based access control** using **Gadget**, designing backend logic to securely manage authenticated user sessions.
- Designed a **serverless backend data model** to store user activity and stock queries, supporting authenticated usage and enabling rapid iteration under tight hackathon timelines.

LEADERSHIP

Western Developer's Society

Oct. 2024 – Present

Vice President of External Affairs | Promoted from Director

London, ON

- **Co-led the External Affairs** portfolio, managing a team of 5 directors and driving planning, execution, and **cross-portfolio coordination** for technical workshops and flagship events.
- **Designed and delivered 2 hands-on workshops** (HTML/CSS + Git and Figma design), and planned 3 additional workshops covering React/JavaScript, backend, and full-stack development, coordinating logistics and presenters.
- **Co-founded and led execution of Spark**, WDS's first case-competition + hackathon, managing timelines, communications, and a **\$4k+ budget** for an event targeting **100+ participants** across multiple universities.
- Led sponsor outreach and calls, **securing partnerships with EY, Voices and Slido** and previously contributed to outreach efforts that secured **TD sponsorship** for WDS's flagship hackathon.

TECHNICAL SKILLS/INTERESTS

Languages: Python, Java, C#, C, C++, SQL, JavaScript, TypeScript, HTML/CSS, R, Linux/Unix

Frameworks: React, Swift, Node.js, Next.js, .NET, Bootstrap

Developer Tools: Git, GitHub, Azure DevOps, Vercel, Supabase, ElevenLabs, Visual Studio, PyCharm, Eclipse, Jupyter

Design & Visualization: Power BI, Figma, Adobe Creative Suite, Microsoft Office, Blender, AutoCAD

Interests: Badminton, Snow Sports (Skiing, Snowboarding, Skating), Traditional Art, Pokémon, Nonagram, Socks
